

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

Although 911 might have been avoided if people had cell phones, it must be ensured that they are safe & won't interfere with plane technology.

I am for it on the whole since in Seoul, when a man blew up a subway train, the people were able to call their families and say good bye while they burned. Sometimes knowing that the person thought of you helps both the living and the dying.

However, we want to make sure it is safe and the noise level won't be excessive.

Sincerely,

Dinda Evans
